AGILE MANAGEMENT: GLI ASPETTI ORGANIZZATIVI

5 ottobre
17,00-19,00

Il paradigma Agile è oggi una risorsa preziosa per riorganizzare le aziende e il management in tempi di Covid.

Saranno presentate varie best practices su cui sta agendo una primaria realtà del settore, e l'esperienza di uno dei più grandi gruppi industriali del mondo, che da tempo opera per valorizzare il capitale umano.

*Saluti di apertura: **Costanza Patti**, Direttore Generale **Fondirigenti** e **Mario Cardoni**, Direttore Generale **Federmanager**.*

Marco Ceresa, AD di **Randstad Italia**;

Roberto Zecchino, Vice President Human Resources and Organization, **Bosch Italy and South Europe**.

Discussant:

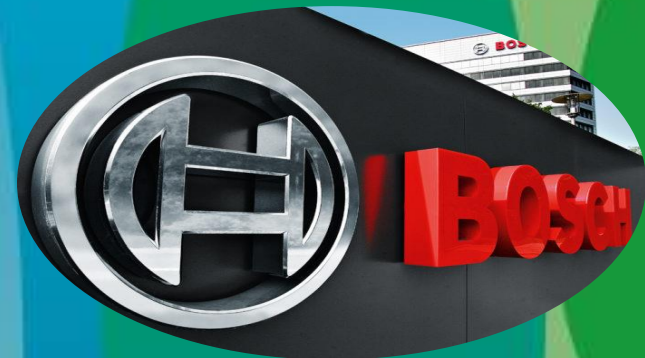

Federico Sacchi, AD di **Cdi Manager**.

Michela Querci, HR Manager ECM, **Progress Rail (Usa)**.

ROBERTO ZECCHINO:

VICE PRESIDENT HR EMEA

ROBERT BOSCH:

Bosch – Technology to enhance quality of life

Bosch – Corporate presentation

Technology to enhance quality of life

Bosch is one of the world's leading international providers of technology and services

126 Engineering locations worldwide, in a single network

Over the past years, Bosch has invested several **billion euros** in research and development

Our objective:
To develop innovative, useful, and exciting products and solutions to enhance quality of life – technology that is
“Invented for life”

BOSCH – TECHNOLOGY
TO ENHANCE QUALITY
OF LIFE

MOBILITY
SOLUTIONS

Bosch – technology to enhance quality of life

Integrated system solutions

Personalized mobility

Automated mobility

Connected mobility

Powertrain systems and electrified mobility

**fun and
fascinating**

**safe and
comfortable**

**efficient and
economical**

Bosch – technology to enhance quality of life

Driver assistance systems as an example

Bosch is developing an ever-increasing range of driver assistance systems which protect all road users.

- ▶ Bosch is constantly extending its comprehensive portfolio of safety systems for cars into other market segments such as two-wheelers, trucks and even rail vehicles and forklifts.
- ▶ Bosch also attributes a particular focus to protect pedestrians and cyclists who are at most risk in traffic.
- ▶ Thanks to the consistent technical advancement of its driver assistance systems, Bosch also creates the technical basis for automated driving in the future.
- ▶ Bosch is a one-stop supplier for all technologies for driver assistance systems, from individual components to complete systems.

more safety

for all traffic participants and vehicle classes,
in road traffic, in logistics depots and in warehouses

less stress

thanks to effective driver support in complex
and monotonous driving situations

Bosch – technology to enhance quality of life

Automated driving as an example

Key technologies for sensors, software, artificial intelligence, powertrain, steering and braking.

- ▶ Be safer on the road: Automated vehicles never tire and can perceive critical situations much sooner and avoid them better than a human being.
- ▶ Arrive more relaxed: In automated mode, drivers can use the time gained to relax, work, communicate or be entertained.
- ▶ Drive more efficiently: Automated vehicles can cover distances in a much more coordinated manner and thus save fuel.
- ▶ Improved flow of traffic: Automated vehicles can drive close to vehicles in front, thereby optimally utilizing the capacity of busy roads.

Bosch, innovative leadership

in all key areas of automated driving

Portfolio with Sense, think, act

covers all of the requisite technologies
in a highly-developed combination of hardware and software

Bosch – technology to enhance quality of life

Mobility as a Service

- ▶ Bosch enables convenient, individual and sustainable mobility in urban areas.
- ▶ Connected services can turn mobility into a personalized experience for users that is precisely tailored to their personal wishes, preferences, and needs.
- ▶ Smart connectivity and user-friendly apps turn mobility into a personal all-in-one service, in which there is a perfect synergy between various modes of transportation and mobility solutions.
- ▶ Bosch makes personalized mobility possible through its own dedicated services and by developing innovative mobility platforms.

Perfectly keyless

With Perfectly Keyless, Bosch offers something that no other keyless entry system has done before, namely offering both convenience and security. The smartphone-based key can be used in cars, entire car-sharing fleets, and commercial vehicles. This enables new services, such as leaving deliveries inside a car.

SmartphoneHub

The connected biking system uses smartphones and the COBI.Bike app to turn the SmartphoneHub into a control center. Once connected to the e-bike, the driver has control over navigation, weather data, driving information, security systems, and much more.

Convenience charging

Bosch Convenience charging turns charging stops into a personalized experience. The intelligent system shows exactly what the range is, where the next charging stations is and what opportunities for shopping, leisure and activities there are nearby.

BOSCH – TECHNOLOGY
TO ENHANCE QUALITY
OF LIFE

INDUSTRIAL
TECHNOLOGY

Bosch – technology to enhance quality of life

Industrial Technology as an example

The Business Sector Industrial Technology

This business sector includes the Drive and Control Technology division, which specializes in drive and control technologies for efficient, powerful, and safe movement in machines and systems. The division combines global application experience in the market segments of mobile applications, plant construction and engineering, and factory automation. The division offers its customers hydraulics, electric drives and controls, gear technology, and linear motion and assembly technology, including software and interfaces to the internet of things. Industrial Technology includes the Bosch Connected Industry business unit.

BOSCH – TECHNOLOGY
TO ENHANCE QUALITY
OF LIFE

ENERGY AND BUILDING
TECHNOLOGY

Bosch – technology to enhance quality of life

Energy and Building Technology as an example

The Thermotechnology Division

The Thermotechnology Division offers solutions for air conditioning, hot water, and decentralized energy management to customers worldwide. It provides heating systems and energy management for residential buildings, water heaters, and commercial and industrial heating and air-conditioning systems. Becoming increasingly important, as is the division's business with electric heat pumps. Robert Bosch Smart Home GmbH offers web-enabled, app-controlled products for the home.

Bosch – technology to enhance quality of life

Energy and Building Technology as an example

The Building Technologies Division

The Building Technologies Division offers solutions and customized services for building security, energy efficiency, and building automation in selected countries. Both units focus on commercial buildings and infrastructure projects. The product portfolio encompasses video-surveillance, intrusion-detection, fire-detection, and voice-alarm systems, as well as access control and professional audio and conference systems.

BOSCH – TECHNOLOGY
TO ENHANCE QUALITY
OF LIFE

CONSUMER GOODS

Bosch – technology to enhance quality of life

Home appliances – **Cookit** as an example

Home appliances for everyone who wants to achieve perfect results easily.

Cookit – is the first digitally connected multifunctional kitchen machine for real cooking, with multiple automatic programmes and temperature precision up to 200 °C.

Connectivity for selected models: “With WLAN technology, they can be controlled conveniently using an app on mobile devices such as tablet PCs or smartphones”.

Bosch – technology to enhance quality of life

Power tools as an example

World-first Biturbo tools

With its Biturbo tools, Bosch is taking performance to a new level: for the first time, cordless tools have outstripped corded ones.

Bosch – technology to enhance quality of life

Power tools as an example

X-Lock - click it in – and you're good to go

The tool mount on angle grinders wasn't changed for 80 years – Bosch has revolutionized it with X-Lock, a world's first and the easiest accessory-change system for angle grinders: Position the wheel in the X-Lock mount, click it in – and you're good to go.

X-Lock makes work easier for professionals and increases their productivity. The system is one of a series of milestones Bosch has set in quick-change systems – like SDS plus and SDS max for rotary hammers.

Bosch – technology to enhance quality of life

Power tools as an example

Slotted, cross-headed and Torx – in letters I-X-O – with a name inspired by these three screw types, the IXO set out to conquer the world more than 15 years ago. Today it is the world's most popular power tool – around 19 million units have been sold so far. The cult status is owed to its uniqueness right down to the packaging.

The **IXO** is small, light, convenient – and powerful thanks to lithium-ion battery technology.

BOSCH – TECHNOLOGY

THE BOSCH BRAND

The Bosch Brand

Brand core – setting the direction for everything we do

The Bosch Brand

Brand personality

The empowering partner who is ...

Passionately
committed

A partner who is genuinely interested in customers' needs, understands those needs, and enthusiastically sets about satisfying them.

Inspirational

A partner who empowers its customers by thinking ahead and forging new paths.

Engagingly
capable

A partner whose comprehensive experience and expertise win over its customers.

Trustworthy

A partner who has a clear sense of values and is true to its word, even in difficult times. A partner you can depend on.

The Bosch Brand

Our brand promises

Quality

Bosch quality stands for **convincing reliability** and **tangible excellence**. Products and services that **perfectly fulfill customer requirements**, combined with our comprehensive support, assure people that they have made the right choice when they opt for Bosch.

Responsibility

Bosch stands for **values-based, responsible business practices**. Our processes and products **conserve resources** and contribute over the long term to a **better quality of life**.

Fascinating products

Thanks to its innovative strength, Bosch sparks enthusiasm with **surprisingly simple** solutions in an **aesthetic, functional design**. We dynamically market our tangibly superior products, delighting our stakeholders.

Global partnership

Bosch's global presence means we are **close to our stakeholders** and markets worldwide. Easy access and close, uncomplicated collaboration make Bosch a **preferred partner**.

AGILE TRANSFORMATION @BOSCH

Agile Transformation@Bosch

Concetti e definizioni:

Agilità

«Si intende la
capacità di aziende e persone
di adattarsi costantemente a nuove
situazioni e sfide
per assicurare il successo»

(fonte: *Wie Agilität gelingt*,
Katharina Maehrlein, 2020)

Agile Leadership

La leadership agile si fonda un mindset
(una logica di pensiero e di azione) che
mette il mercato e il cliente al centro

L'obiettivo è assicurare un ambiente che
favorisca creatività e innovazione.

(fonte: *Svenja Hofert: agiler Führen*, 2018)

Organizzazione agile

Le organizzazioni agili sono caratterizzate da una
elevata capacità di adattamento rapido
all'evoluzione delle condizioni di mercato.

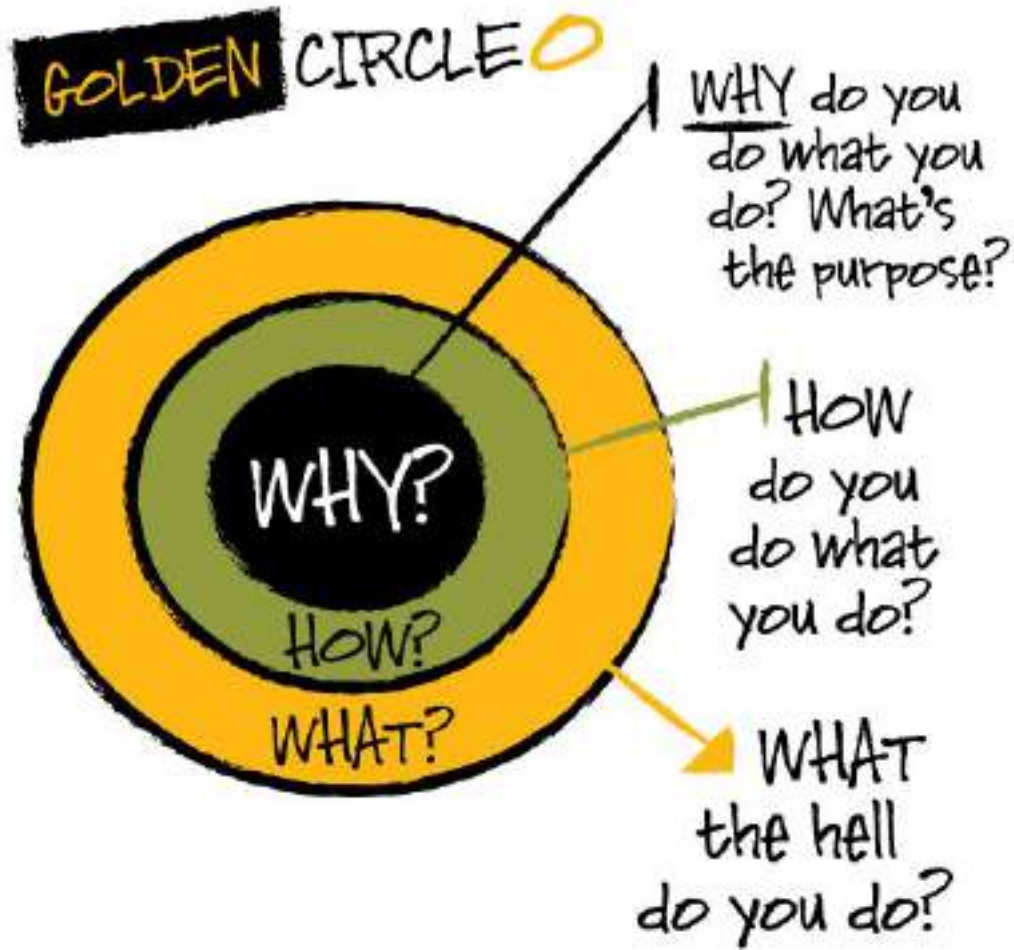

- alto livello di interconnessioni interne
- organizzazione autonoma dei collaboratori
- diffusa e vissuta cultura della fiducia

(fonte: *HR report 2018 : Schwerpunkt agile
Organisationen auf dem Prüfstand*)

AGILE:

«con movimenti morbidi / di vivacità intellettuale»

Connectivity everywhere

Agile Transformation@Bosch

Il mondo sta cambiando ...

WHY?

V

Volatility

U

Uncertainty

C

Complexity

A

Ambiguity

Ambiguity refers to a lack of clarity about how to interpret something. A situation is ambiguous, for example, when information is incomplete, contradicting or too inaccurate to draw clear conclusions. More generally it refers to fuzziness and vagueness in ideas and terminology. The more ambiguous the world is, the harder it is to interpret.

Agile Transformation@Bosch

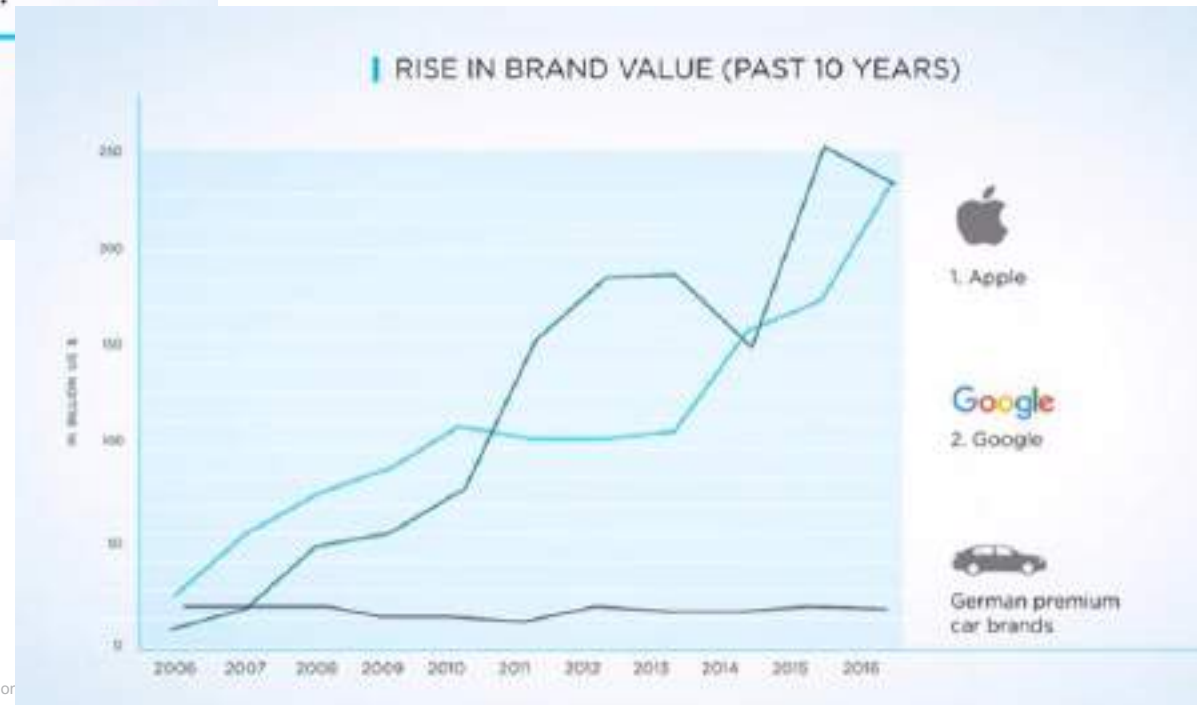

Il mondo sta cambiando ...

“

The greatest danger in times of turbulence is not the turbulence. It is to act with yesterday's logic.

PETER F. DRUCKER

Agile Transformation@Bosch

Il mondo sta cambiando ...

WHY?

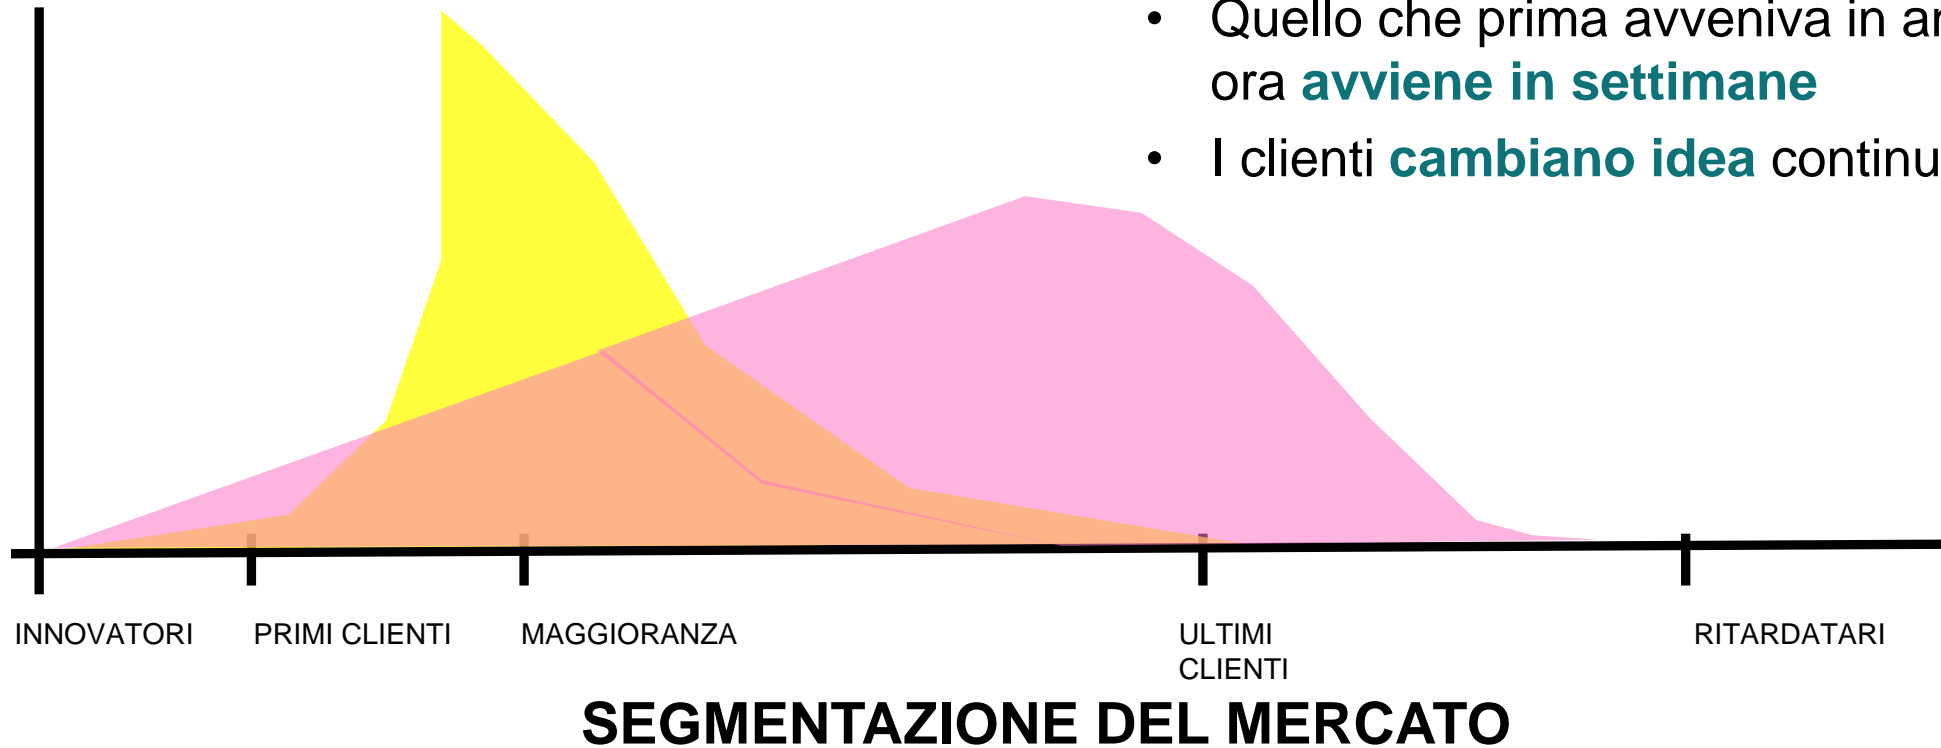

Agile Transformation@Bosch

Il mercato sta cambiando ...

WHY?

Modello a pinna di squalo

- Questa **accelerazione** sta cambiando i modelli tradizionali dell'industria
- Quello che prima avveniva in anni, ora **avviene in settimane**
- I clienti **cambiano idea** continuamente

Agile Transformation@Bosch

Le aziende devono cambiare!

Occorre un mindset, **dinamico e capace di evolversi** sulla base di nuove informazioni o esperienze.

Le aziende tradizionali sono minacciate da «internet company » e start-up; fra le 10 aziende più importanti, 80% sono nate negli ultimi 20 anni.

Le tendenze e i bisogni mutano sempre più velocemente e chi non riesce a tenere il passo del cambiamento è destinato a sparire.

(fonte : *Das agile Mindset : Mitarbeiter entwickeln, Zukunft der Arbeit gestalten*, Svenja Hofert, 2018)

Agile Transformation@Bosch

Noi stiamo cambiando ...

Mindset : Logica di pensiero e di azione

Cultura : comportamenti osservabili nell'organizzazione

La cultura può cambiare solo se cambia il mindset;
non ci sono mindset giusti o sbagliati, solo più o meno adatti ai contesti da affrontare

Agile Transformation@Bosch

La nostra rotta

WHY?

We **adapt** to changes and we **shape** them –
continuously & rapidly, customer & user driven
and **faster** than market & competitors.

Agile Transformation@Bosch

HOW ? Le nostre modalità di applicazione e sviluppo

- Agile non è una **panacea**
- Nel breve periodo non tutta Bosch si trasformerà completamente in Agile
- Il **passaggio** e il posizionamento dei progetti, verrà fatto **in base alle strategie** aziendali
- Col tempo il numero e la frequenza delle attività e dei **progetti agili cresceranno**

si passerà solo progressivamente
dal modello **WATERFALL** (sequenziale, «a cascata»),
al modello **AGILE** (per reiterazioni successive e avanzamenti a pacchetti)

Agile Transformation@Bosch

L'organizzazione agile: Dual Organization

Bassa complessità

Complessità elevata

Mangement

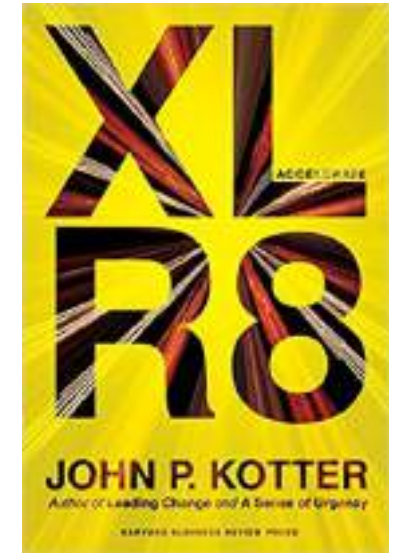

Pianifica
Organizza
Controlla

Gestione del **core business**
Garantisce **stabilità**
E' affidabile ed **efficiente**

Leadership

Dà una visione / scopo
Guida
Ispira

Crea **nuovi business**
Stimola e promuove **l'innovazione**
E' veloce e **adattativo**

Costruire un modello agile
funzionale per un mondo in
continua evoluzione

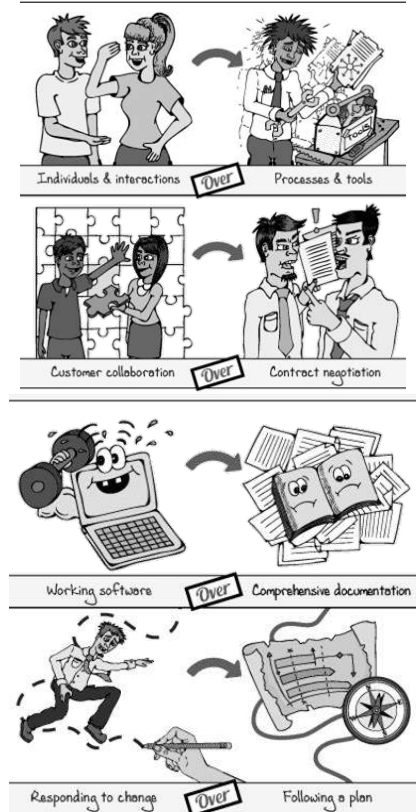

Agile Transformation@Bosch

... per esempio in SCRUM – il metodo più diffuso

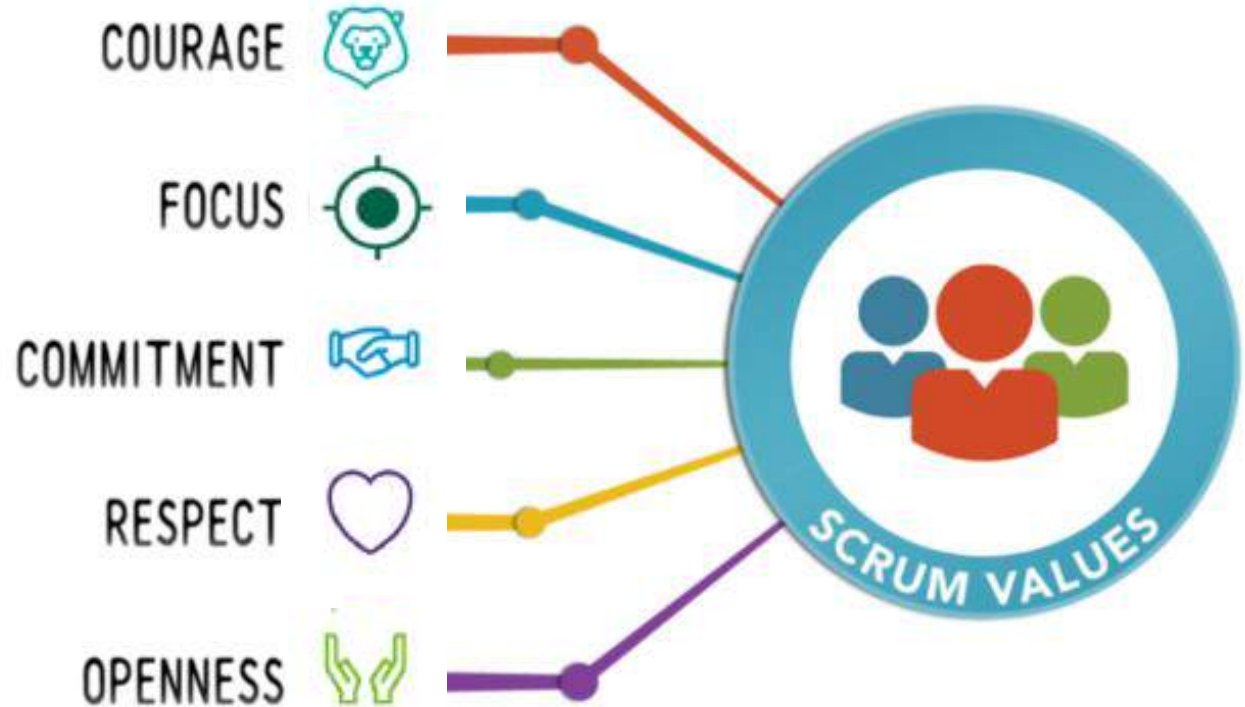

Agile Transformation@Bosch

SCRUM: il metodo per lavorare agile più **valoriale**!

I principi di una
collaborazione efficace –
e di
un'organizzazione performante

Agile Transformation @ Bosch

... ma ...

Essere Agile

(applicazione mindset adattativo, leadership partecipativa)

Incremento efficacia +200% con

- Engagement e responsabilizzazione dei collaboratori
- Leadership diffusa attraverso le gerarchie
- Incremento customer satisfaction
- Apprendimento continuo

Lavorare Agile

(utilizzo per es. tecniche Scrum, Kanban)

Incremento efficacia +20% con

- Miglioramento di visibilità e comunicazione
- Incremento della produttività
- Incremento capacità adattativa ai cambi di priorità

... amplifica quali- e quantitativamente i benefici.

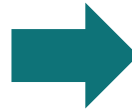

L'incapacità di adottare e vivere un **mindset adattativo**, riduce sensibilmente l'efficacia dei metodi di Lavoro Agile, anche se perfettamente applicati.

Semplicità

Agile Transformation @ Bosch

I Principi dell'Agilità:

We
LEAD
Bosch

I progetti sono portati avanti da **persone motivate**, cui abbiamo fornito le risorse e l'ambiente necessari per lavorare.

Le migliori architetture, requisiti e progetti sono realizzate **da team che si organizzano da soli**.

La **semplicità**, ovvero l'arte di massimizzare il lavoro che non viene fatto, è essenziale.

I processi Agile promuovono lo **sviluppo sostenibile**. Sponsor, sviluppatori e utenti devono mantenere un ritmo di lavoro costante.

Siamo guidati dai nostri **valori**.

Abbiamo chiari i nostri **obiettivi** di business e lavoriamo con **passione** per raggiungerli con successo.

Promuoviamo **l'autonomia**, superando ogni ostacolo.

Lavoriamo per priorità, **semplificando**, prendendo decisioni **rapide** e attuandole con **precisione**.

Comunichiamo **apertamente, frequentemente e a tutti i livelli**.

Il modo più efficace ed efficiente di trasmettere le informazioni in un team di sviluppo è la **comunicazione faccia a faccia**.

L'**attenzione costante** alla buona progettazione e all'**eccellenza** tecnica aumenta l'agilità.

Puntiamo all'**eccellenza**.

La nostra **priorità è soddisfare il cliente** rilasciando continuamente e il prima possibile prodotti software che generino valore.

Siamo entusiasti delle **novità** e vediamo il cambiamento come un'**opportunità**.

Le **modifiche ai requisiti sono benvenute**. I processi Agile sfruttano i cambiamenti per garantire al cliente un vantaggio competitivo.

Impariamo dagli errori e li consideriamo parte integrante della **cultura di innovazione**.

A intervalli regolari il team deve riflettere su **come diventare più efficace** e modificare di conseguenza il proprio modo di agire.

Collaboriamo **tra funzioni diverse**, indipendentemente dalle gerarchie, dando priorità al **risultato**.

Le persone del *business* e gli sviluppatori devono **lavorare insieme** ogni giorno per tutta la durata del progetto.

Diamo e chiediamo **feedback**; fondiamo la nostra leadership su **fiducia, rispetto ed empatia**.

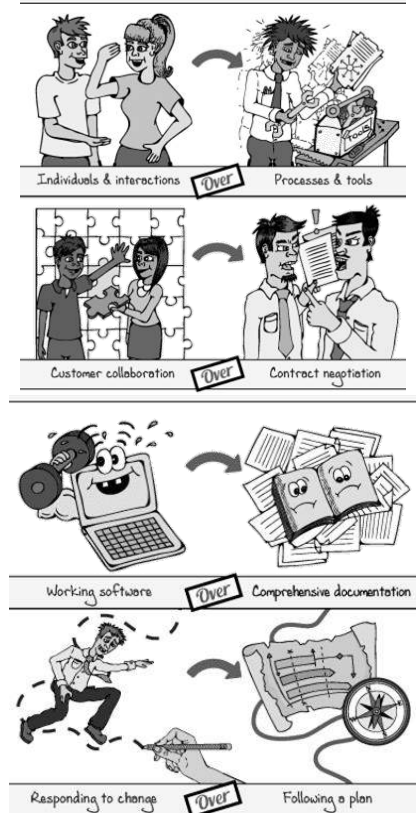

Agile Transformation@Bosch

Agile Transformation@Bosch

Mindset agile (= adattativo): per vivere la trasformazione

5 direttrici comportamentali:

1. Meno attenzione alla profittabilità e più **attenzione al senso** del business
2. Meno gerarchia e più **lavoro di team**
3. Meno controllo e più **responsabilità individuali**
4. Meno pianificazione a lungo termine e più **iterazioni progressive**
5. Meno «segreti » e più **trasparenza**

(fonte : Nowotny 2016

Agile Unternehmen : nur was sich bewegt, kann sich verändern)

5 competenze di leadership (diffusa) :

1. Disponibilità all'introspezione e **fiducia** autentica nella possibilità evolutive della natura umana
2. Buona «**sensibilità** » ovvero saper registrare anche segnali deboli
3. Disponibilità al **cambiamento**, a spingersi in nuove esperienze, a scoprire nuove vie e soluzioni alternative
4. **Coraggio** di portare avanti le proprie idee e capacità di ispirare gli altri all'emulazione
5. Disponibilità a rivedere le proprie convinzioni e a **imparare** dalle proprie esperienze

(fonte : Das agile Mindset : Mitarbeiter entwickeln, Zukunft der Arbeit gestalten, Svenja Hofert, 2018)

Agile Transformation@Bosch

Mindset agile (= adattativo): per vivere la trasformazione

What are the most important competencies Bosch associates should possess in order to overcome future challenges?

It's less about certain competencies, and more about the right mindset: the willingness to assume responsibility for personal development, and to learn continuously to improve knowledge and skills. With this willingness and flexibility, associates can develop personally and contribute to the company's success.

Agile Transformation@Bosch

I «numeri» dell'Agilità:

4 priorità:

1. Persone e interazioni
2. Eccellenza
3. Collaborazione col cliente
4. Disponibilità al cambiamento

5 competenze:

1. Introspezione e fiducia
2. Elevata «sensibilità» percettiva
3. Disponibilità al cambiamento
4. Coraggio e capacità di ispirare
5. Disponibilità a imparare dalle esperienze

La nostra testa
è rotonda per
permettere ai pensieri
di cambiare direzione.
Francis Picabia

12 regole, 8 valori:

- | | | | | | |
|------------------|-------|----------|---------|------------|---------|
| 1. Apertura | Focus | Openness | Courage | Commitment | Respect |
| 2. Impegno | | | | | |
| 3. Focus | | | | | |
| 4. Coraggio | | | | | |
| 5. Rispetto | | | | | |
| 6. Comunicazione | | | | | |
| 7. Feedback | | | | | |
| 8. Semplicità | | | | | |

5 comportamenti:

1. più attenzione al senso del business
2. più lavoro di team
3. più responsabilità individuali
4. più iterazioni progressive
5. più trasparenza

Agile Transformation@Bosch

Agilità: prerequisito di Lavoro Agile - alla sua massima espressione ...

“Il lavoro viene valutato sugli output, indipendentemente da come o quando vengono prodotti.

*La fidelizzazione dei dipendenti aumenta, anche grazie a più consistenti investimenti in **formazione e coaching**.*

Team distribuiti a livello globale, che lavorano in modo asincrono e padroneggiano l'arte del "passaggio di testimone", possono triplicare la propria performance rispetto a un team locale con obbligo di presenza totale in ufficio tra le 9 e le 18.

Il lavoro viene svolto, secondo le esigenze del collaboratore 24 ore su 24, 7 giorni su 7.

Nel rispetto di cicli, fasi e ritmi più funzionali dei collaboratori stessi.”

Livello 4: Comunicazione asincrona

Matt Mullenweg, fondatore di Automattic (web company Wordpress), 1.170 dipendenti, sparsi in più di 75 paesi, 93 lingue, nessun ufficio, collaboratori quasi esclusivamente online.

Technology to enhance quality of life

Bosch is one of the world's leading international providers of technology and services

126 Engineering locations worldwide, in a single network

Over the past years, Bosch has invested several **billion euros** in research and development

Our objective:
To develop innovative, useful, and exciting products and solutions to enhance quality of life – technology that is
“Invented for life”

BOSCH – TECHNOLOGY
TO ENHANCE QUALITY
OF LIFE

MOBILITY
SOLUTIONS

Bosch – technology to enhance quality of life

Integrated system solutions

Personalized mobility

Automated mobility

Connected mobility

Powertrain systems and electrified mobility

**fun and
fascinating**

**safe and
comfortable**

**efficient and
economical**

Bosch – technology to enhance quality of life

Driver assistance systems as an example

Bosch is developing an ever-increasing range of driver assistance systems which protect all road users.

- ▶ Bosch is constantly extending its comprehensive portfolio of safety systems for cars into other market segments such as two-wheelers, trucks and even rail vehicles and forklifts.
- ▶ Bosch also attributes a particular focus to protect pedestrians and cyclists who are at most risk in traffic.
- ▶ Thanks to the consistent technical advancement of its driver assistance systems, Bosch also creates the technical basis for automated driving in the future.
- ▶ Bosch is a one-stop supplier for all technologies for driver assistance systems, from individual components to complete systems.

more safety

for all traffic participants and vehicle classes,
in road traffic, in logistics depots and in warehouses

less stress

thanks to effective driver support in complex
and monotonous driving situations

Bosch – technology to enhance quality of life

Automated driving as an example

Key technologies for sensors, software, artificial intelligence, powertrain, steering and braking.

- ▶ Be safer on the road: Automated vehicles never tire and can perceive critical situations much sooner and avoid them better than a human being.
- ▶ Arrive more relaxed: In automated mode, drivers can use the time gained to relax, work, communicate or be entertained.
- ▶ Drive more efficiently: Automated vehicles can cover distances in a much more coordinated manner and thus save fuel.
- ▶ Improved flow of traffic: Automated vehicles can drive close to vehicles in front, thereby optimally utilizing the capacity of busy roads.

Bosch, innovative leadership

in all key areas of automated driving

Portfolio with Sense, think, act

covers all of the requisite technologies
in a highly-developed combination of hardware and software

Bosch – technology to enhance quality of life

Mobility as a Service

- ▶ Bosch enables convenient, individual and sustainable mobility in urban areas.
- ▶ Connected services can turn mobility into a personalized experience for users that is precisely tailored to their personal wishes, preferences, and needs.
- ▶ Smart connectivity and user-friendly apps turn mobility into a personal all-in-one service, in which there is a perfect synergy between various modes of transportation and mobility solutions.
- ▶ Bosch makes personalized mobility possible through its own dedicated services and by developing innovative mobility platforms.

Perfectly keyless

With Perfectly Keyless, Bosch offers something that no other keyless entry system has done before, namely offering both convenience and security. The smartphone-based key can be used in cars, entire car-sharing fleets, and commercial vehicles. This enables new services, such as leaving deliveries inside a car.

SmartphoneHub

The connected biking system uses smartphones and the COBI.Bike app to turn the SmartphoneHub into a control center. Once connected to the e-bike, the driver has control over navigation, weather data, driving information, security systems, and much more.

Convenience charging

Bosch Convenience charging turns charging stops into a personalized experience. The intelligent system shows exactly what the range is, where the next charging stations is and what opportunities for shopping, leisure and activities there are nearby.

BOSCH – TECHNOLOGY

OF LIFE

INDUSTRIAL
TECHNOLOGY

Bosch – technology to enhance quality of life

Industrial Technology as an example

The Business Sector Industrial Technology

This business sector includes the Drive and Control Technology division, which specializes in drive and control technologies for efficient, powerful, and safe movement in machines and systems. The division combines global application experience in the market segments of mobile applications, plant construction and engineering, and factory automation. The division offers its customers hydraulics, electric drives and controls, gear technology, and linear motion and assembly technology, including software and interfaces to the internet of things. Industrial Technology includes the Bosch Connected Industry business unit.

BOSCH – TECHNOLOGY
TO ENHANCE QUALITY
OF LIFE

ENERGY AND BUILDING
TECHNOLOGY

Bosch – technology to enhance quality of life

Energy and Building Technology as an example

The Thermotechnology Division

The Thermotechnology Division offers solutions for air conditioning, hot water, and decentralized energy management to customers worldwide. It provides heating systems and energy management for residential buildings, water heaters, and commercial and industrial heating and air-conditioning systems. Becoming increasingly important, as is the division's business with electric heat pumps. Robert Bosch Smart Home GmbH offers web-enabled, app-controlled products for the home.

Bosch – technology to enhance quality of life

Energy and Building Technology as an example

The Building Technologies Division

The Building Technologies Division offers solutions and customized services for building security, energy efficiency, and building automation in selected countries. Both units focus on commercial buildings and infrastructure projects. The product portfolio encompasses video-surveillance, intrusion-detection, fire-detection, and voice-alarm systems, as well as access control and professional audio and conference systems.

BOSCH – TECHNOLOGY
TO ENHANCE QUALITY
OF LIFE

CONSUMER GOODS

Bosch – technology to enhance quality of life

Home appliances – **Cookit** as an example

Home appliances for everyone who wants to achieve perfect results easily.

Cookit – is the first digitally connected multifunctional kitchen machine for real cooking, with multiple automatic programmes and temperature precision up to 200 °C.

Connectivity for selected models: “With WLAN technology, they can be controlled conveniently using an app on mobile devices such as tablet PCs or smartphones”.

Bosch – technology to enhance quality of life

Power tools as an example

World-first Biturbo tools

With its Biturbo tools, Bosch is taking performance to a new level: for the first time, cordless tools have outstripped corded ones.

Bosch – technology to enhance quality of life

Power tools as an example

X-Lock - click it in – and you're good to go

The tool mount on angle grinders wasn't changed for 80 years – Bosch has revolutionized it with X-Lock, a world's first and the easiest accessory-change system for angle grinders: Position the wheel in the X-Lock mount, click it in – and you're good to go.

X-Lock makes work easier for professionals and increases their productivity. The system is one of a series of milestones Bosch has set in quick-change systems – like SDS plus and SDS max for rotary hammers.

Bosch – technology to enhance quality of life

Power tools as an example

Slotted, cross-headed and Torx – in letters I-X-O – with a name inspired by these three screw types, the IXO set out to conquer the world more than 15 years ago. Today it is the world's most popular power tool – around 19 million units have been sold so far. The cult status is owed to its uniqueness right down to the packaging.

The **IXO** is small, light, convenient – and powerful thanks to lithium-ion battery technology.

THE BOSCH BRAND

The Bosch Brand

Brand core – setting the direction for everything we do

The Bosch Brand

Brand personality

The empowering partner who is ...

Passionately
committed

A partner who is genuinely interested in customers' needs, understands those needs, and enthusiastically sets about satisfying them.

Inspirational

A partner who empowers its customers by thinking ahead and forging new paths.

Engagingly
capable

A partner whose comprehensive experience and expertise win over its customers.

Trustworthy

A partner who has a clear sense of values and is true to its word, even in difficult times. A partner you can depend on.

The Bosch Brand

Our brand promises

Quality

Bosch quality stands for **convincing reliability** and **tangible excellence**. Products and services that **perfectly fulfill customer requirements**, combined with our comprehensive support, assure people that they have made the right choice when they opt for Bosch.

Responsibility

Bosch stands for **values-based, responsible business practices**. Our processes and products **conserve resources** and contribute over the long term to a **better quality of life**.

Fascinating products

Thanks to its innovative strength, Bosch sparks enthusiasm with **surprisingly simple** solutions in an **aesthetic, functional design**. We dynamically market our tangibly superior products, delighting our stakeholders.

Global partnership

Bosch's global presence means we are **close to our stakeholders** and markets worldwide. Easy access and close, uncomplicated collaboration make Bosch a **preferred partner**.

AGILE MANAGEMENT: ASPETTI MOTIVAZIONALI E DI CULTURA D'IMPRESA

13 ottobre
17,00-19,00

Costruire una realtà Agile comporta non solo le soluzioni organizzative, ma un terreno che va preparato a livello motivazionale e di chiari valori di condivisione e sostegno fra manager e collaboratori. Grazie a un docente di grande esperienza nelle multinazionali, e a una manager in prima linea in una multinazionale tascabile, si avrà un quadro della cultura da implementare nelle aziende per guidare le persone verso un'idea più flessibile ma esigente di lavoro in impresa.

Alvaro Buseti, già **IT manager** in multinazionali, e docente presso Federmanager Academy e le Corporate University di ENI, Mercedes, Renault;
Lorenza Carretti, Quality Manager presso la multinazionale **Bucher Hydraulics**.

Discussant:

Stefania Santucci, Bus. Dev. Manager **Cybertech**.
Lorena Ignazzi, Agile Marketing Certified Professional in aziende **multinazionali B2B e B2C**.

DAL COMANDO & CONTROLLO ALL'AGILE MANAGEMENT

Sopravvivere in un contesto dinamico dominato dalla tecnologia

Alvaro Busetti

37

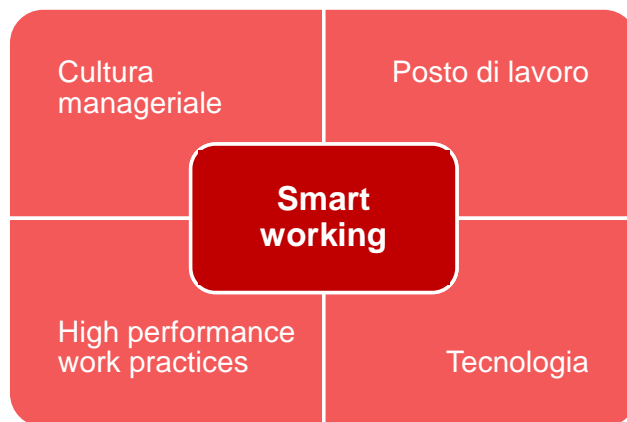

Smart Working: che cos'è...

Lo Smart Working è un nuovo approccio globale al modo di lavorare, basato sui seguenti principi:

- La flessibilità nell'uso delle risorse è la norma e non l'eccezione;
- Le attività si svolgono nei posti e nei tempi più convenienti al loro svolgimento;
- Tutti possono fruire del lavoro flessibile senza nessuna distinzione di persona o ruolo;
- Le persone possono decidere dove e quando lavorare ma nel rispetto delle esigenze aziendali;
- Gli spazi sono assegnati alle attività e non alle persone, senza nessuna considerazione di ruolo e/o anzianità;
- C'è un utilizzo avanzato delle tecnologie di comunicazione a supporto di quanto sopra..
- I criteri di valutazione delle performance sono centrati sui risultati e non sulla presenza;

40

41

Smart Working vs. Agile Working

Smart Working is defined as 'an approach to organising work that aims to drive greater efficiency and effectiveness in achieving job outcomes through a combination of flexibility, autonomy and collaboration, in parallel with optimising tools and working environments for employees'. It is characterized by:

- a high degree of autonomy and a philosophy of empowerment
- concepts of virtuality in teams or work groups
- outcome-based indicators of achievement
- flexible work location and hours
- flexible physical work environment conditions that support collaboration
- high-trust working relationship

Agile Working is defined as "allowing an organization to establish an optimal workforce to support an organization's objectives. We define agile working practices along four dimensions:

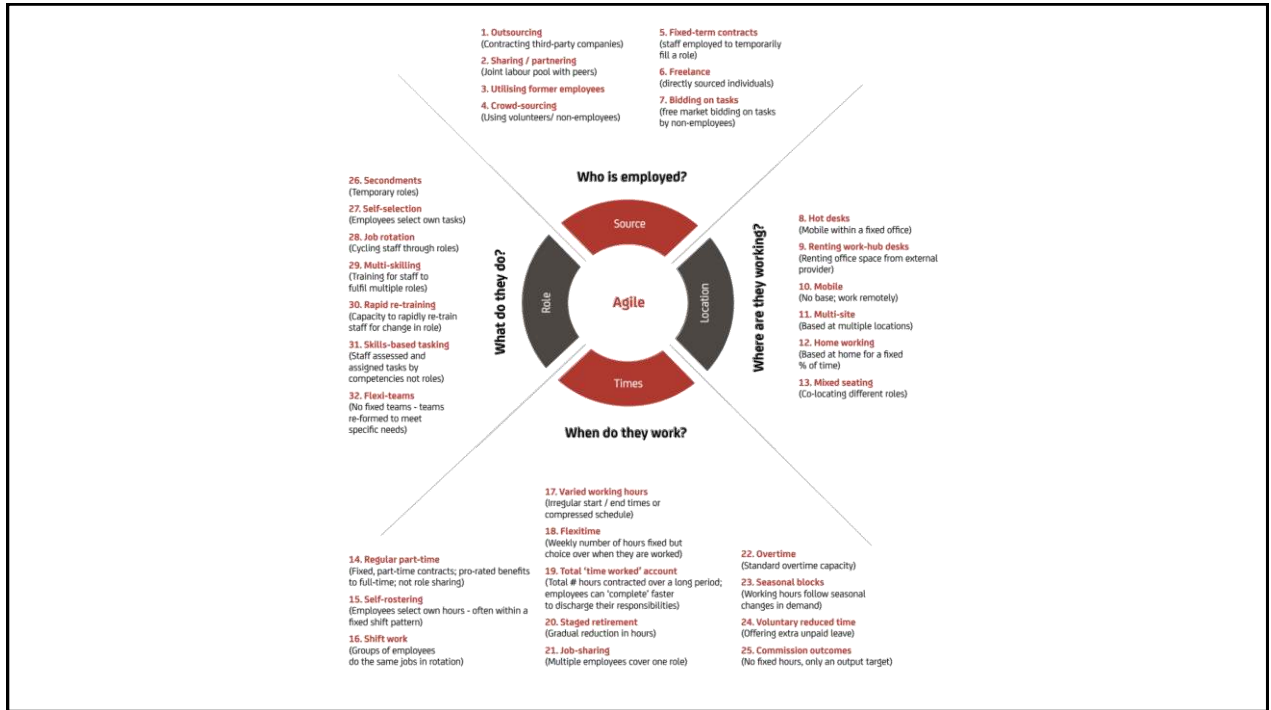

- **Time:** when do people work? (for example, part-time, shifts, staged retirement).
- **Location:** where do people work? (for example, homeworking, across multiple sites).
- **Role:** what do people do? (for example, multi-skilling, secondments, job rotation).
- **Source:** who is employed? (for example, permanent employees, crowdsourcing, outsourcing).
